Erica, I have other files. Why don't you send me your information and control sheet. I will sign them all the control sheets when I get everything.

Thank you.

Hi Fran,

I think I have it. I picked up some additional files on Tuesday from Records that were archived. I will scan them today. These were the remaining files that I was waiting on. All the other files have been scanned. That I am aware, what I have is all that was in the Record file room. All the files obtained from Records were Compliance/Enforcement emissions and performance test reports. None of the files are CBI. I also have a permit file that was in my record.

There is a **control sheet** that requires a supervisor's signature. Do you want me to fill out and email to you or Jeff's acting for signature. I believe it can be signed electronically. Then I can send the files (including the signed control sheet) to Shirley. How do you want to handle the transmittal of documents to Shirley? Do you want me to send you the scanned documents for your review beforehand or just cc you when I send all to Shirley.

Erica

Hi, Erica. Where are you on this FOIA? Forgiveness requested if you have already completed this and sent to Shirley.

Fran

Jeff,

FYI, I have the Sterigenics permit documents that were in my files and some Compliance documents obtained from 10<sup>th</sup> floor records all scan and ready to be email to you or the acting (there is a checklist to be signed) and Shirley. I am waiting on some files that were archived. Sabrina placed a request for these and it takes 3 to 5 business days – possibly here Monday. I think the response date for this request is April 25. I will scan and email all files together. Making sure all files are non-CBI.

Thank you, Erica

This request limits the scope to this facility Sterigenics facility located at 2400 Airport Road, Santa Teresa, New Mexico 88008. Given that it is limited to this one facility, is it still appropriate to refer this to 6EN, HQ OAQPS, and ORD?

Thanks,  
Nancy

Nancy, please add EN for the FOIA, and OAQPS and ORD to question re: *Ethylene oxide and the link between its use and cancer*. Thanks.

Fran
